

Ahmet Fahri Küçük

Hello,

You can find my portfolio links above. I've graduated from Marmara University Faculty of Fine Arts' Graphic Department. Worked for esyakituphanesi, Designneuro and for Edward Ising before. Currently I do freelance work for a studio called Lemonat and occasionally craft projects with teyit.org(a non-profit journalism organisation). We also have a platform called Cycle where we do animation and interaction design.

Some of the web projects I was involved.
